- g. Captain Drago Oreb is reportedly artillery commander on Cape Privala.
- 2. The following installations and defenses were observed on the western part of Korcula Island:
 - large-scale construction of defenses was in progress on Cape Rasnjic during all of 1950 and the early part of 1961. Construction work in Rasnjic appears to have ceased. Labor units and technical equipment have been transported to Privala. Eight large bushess are visible from the water near the tip of Cape Rasnjic, despite the fact that these defenses are screened by branches.
 - b. There is reportedly a fairly large unspecified garrison on Cape Raznjic.
- 3. The headquarters of an unspecified military command is allegedly in the town of Korcula, close to the coast. The staff reportedly comprises approximately 100 naval officers.
- 4. The Korcula military command has reportedly ordered the entire civilian 50X1-HUM population to be evacuated from the Island.
